### CERTIFICATION BULLETIN 2009- 03

To: Members of the Advisory Council of the Underwriters' Laboratories of Canada  
Others Interested

SUBJECT: Survey on the need and requirements for an ORD on Thermal Heating Glass

Dear Members:

At the May 2008 meeting of the ULC Advisory Council, ULC requested input from the members on the need for and concerns about an ORD for Thermal Heating Glass. ULC had received a request to develop this ORD primarily to deal with the electrical aspects.

Advisory Council members suggested that more time was needed by them to consider this and that a survey on the product be circulated to the Advisory Council members to determine what requirements it would need to meet.

The purpose of the attached survey is to obtain the Advisory Council members input on the proposed scope, need for and expected requirements for the development by Underwriters Laboratories of Canada of an Other Recognized Document (ORD) on Thermal Heating glass.

The survey contains information on the product and the survey response form. Members are asked to return this survey via email (Rae.dulmage@ca.ul.com) or fax (613-231-5977) by the date required to the attention of Rae Dulmage, Director, Standards Department, Government Relations Office and Regulatory.

The deadline for return of this survey is March 18, 2009.

Thank you for your support of the Advisory Council.
