STANDARDS BULLETIN 2010-26

First Edition of CAN/ULC-61111-10 (MOD) Live Working - Electrical Insulating Matting

ULC Standards is pleased to announce the publication of the First Edition of CAN/ULC 61111-10 Live Working - Electrical Insulating Matting, and has been published under the date of December 2010.

CAN/ULC-61111-10 is applicable to flexible electrical insulating matting made of elastomer for use as a floor covering to provide electrical protection of workers on electrical installations.

By following CAN/ULC-61111-10, Electrical Insulating Matting can be designed and manufactured to contribute to the safety of the users provided they are used by skilled persons, in accordance with safe methods of work. More information about safe work methods and the use of Electric Insulating Matting can be found in CAN/ULC-S801 Standard on Electric Utility Workplace Electrical Safety for Generation, Transmission and Distribution.

CAN/ULC-61111-10 (MOD) is a Canadian adoption with modifications of the Second Edition of IEC 61111:2009 including all amendments as of July 2009.

If you require any additional information, please contact Wouter van Halderen at 613-755-2729 or by email at: Wouter.vanHalderen@ca.ul.com.

This standard can be ordered for \$150.00 CAN (Hardcopy) from the ULC website (www.ulc.ca) ULC online store.

Yours truly,

ULC Standards
