

## STANDARDS BULLETIN 2014-13

---

### CALL FOR MEMBERS

#### CAN/ULC-S674: UNVENTED ALCOHOL FUEL BURNING DECORATIVE APPLIANCES

---

The ULC Subcommittee on Unvented Alcohol Fuel Burning Decorative Appliances will be developing the following National Standard of Canada:

#### **CAN/ULC-S674, Standard for Unvented Alcohol Fuel Burning Decorative Appliances**

This proposed first edition of the Standard will cover factory-built, unvented appliances that are intended to be fixed/non-moveable. These appliances are decorative in nature and limited to a maximum output of 10,000 BTU/hour.

The Standard is based on ULC/ORD-C627.1, which has been in use since in Canada since 2008. This Canadian project and related projects in other countries are of interest to the members of the ISO Committee on Consumer Policy (COPOLCO).

ULC Standards is seeking volunteers to participate in the development of this standard. We are looking to add members who are involved in manufacturing, consumer product regulation, or fire safety.

Should you wish to be considered as a potential member of the ULC Subcommittee, please submit your name and contact information, together with your resume to [Gillian.Ottley@ul.com](mailto:Gillian.Ottley@ul.com).

For additional information, contact Gillian Ottley at [Gillian.Ottley@ul.com](mailto:Gillian.Ottley@ul.com) or by phone: (613) 755-2729 ext. 61427.

Yours truly,

ULC Standards

G. Rae Dulmage  
Director, Standards Department, Government Relations Office and External Affairs
