STANDARDS BULLETIN 2011-22

Fourth Edition CAN/ULC-S603.1-11

EXTERNAL CORROSION PROTECTION SYSTEMS FOR STEEL UNDERGROUND TANKS FOR FLAMMABLE AND COMBUSTIBLE LIQUIDS

ULC Standards is pleased to announce the publication of the Fourth Edition CAN/ULC-S603.1, External Corrosion Protection Systems for Steel Underground Tanks for Flammable and Combustible Liquids. This National Standard of Canada was developed by the ULC Standards Task Group on External Corrosion Protection Systems and was formally approved by the ULC Committee on Stationary Steel Storage Containers for Flammable and Combustible Liquids.

These requirements cover external corrosion protection systems on steel non-pressure tanks that are used for the underground storage of flammable liquids and combustible liquids.

These external corrosion protection systems are intended to be installed, operated and maintained in accordance with the manufacturer's instructions. These requirements cover external corrosion protection systems for steel tanks manufactured in accordance with the applicable requirements of ULC-S603, Standard for Steel Underground Tanks for Flammable and Combustible Liquids, which are used for the underground storage of flammable liquids and combustible liquids that are compatible with the materials of construction.

This Edition of the Standard introduces a new production test and additional markings for the jacketed tanks.

CAN/ULC-S603.1-11 is available for purchase at $169.00 for soft copy or $202.80 for hard copy from the ULC website (www.ulc.ca) ULC online store. Should you require any additional information, please contact Tess Espejo at (416) 757-5250 ext. 61212 or at email address: Theresa.Espejo@ca.ul.com.

Yours truly,
ULC STANDARDS
