## CERTIFICATION BULLETIN CCH-2016-044

---

**To: Subscribers/Listees to ULC's Listing Service for VALVES, DRY-PIPE (VPZVC)**

---

**Subject: Harmonization of VALVES, DRY-PIPE (VPZVC) with VALVES, DRY PIPE Certified for Canada (VPZV7)**

---

UL as an enterprise is striving to offer to its customers combined Canadian Certification Directories. In doing so, Underwriters Laboratories of Canada Inc. (ULC) and UL LLC are harmonizing their Canadian Certification categories in order to come up with a single Canadian Listing Directory for certified (Listed) products.

Consequently, UL is harmonizing the certification category VALVES, DRY-PIPE (VPZVC) with the certification category VALVES, DRY PIPE Certified for Canada (VPZV7). As the category VPZVC is being harmonized, the Product Listings that are currently certified under VPZVC will now be under VPZV7.

The harmonized categories will represent manufacturers who received authorization from ULC and UL LLC to use their respective marks for Canada.

There are certain administrative activities that are taking place; one such activity is harmonizing the Category Control Numbers (CCN's, an internal terminology used for tracking) resulting in a combined Canadian Listing Directory. Any necessary revisions to your File will be notified and will be at no charge to you. We anticipate completing this transition by March 31, 2016.

Your Field Representative can assist you with any questions regarding the change in category. If you have additional questions please contact Monica Westphal via phone at (847)-664-1228, or email [Monica.Westphal@ul.com](mailto:Monica.Westphal@ul.com).

Please share this Bulletin with other interested parties within your organization.

Sincerely,

**Issued under the joint responsibility of Underwriters Laboratories of Canada Inc. & UL LLC.
