CERTIFICATION BULLETIN CCH-2016-091

To: Subscribers/Listees to ULC's Listing Service for Exhaust Hoods For Commercial or Institutional Kitchens (YYCWC)

Subject: Harmonization of Exhaust Hoods For Commercial or Institutional Kitchens (YYCWC) with Exhaust Hoods Without Exhaust Dampers Certified for Canada (YYCW7)

UL as an enterprise is striving to offer to its customers combined Canadian Certification Directories. In doing so, Underwriters Laboratories of Canada Inc. (ULC) and UL LLC are harmonizing their Canadian Certification categories in order to come up with a single Canadian Listing Directory for certified (Listed) products.

Consequently, UL is harmonizing the certification category Exhaust Hoods For Commercial or Institutional Kitchens (YYCWC) with the certification category Exhaust Hoods Without Exhaust Dampers Certified for Canada (YYCW7). As the category YYCWC is being harmonized, the Product Listings that are currently certified under YYCWC will now be under YYCW7.

The harmonized categories will represent manufacturers who received authorization from ULC and UL LLC to use their respective marks for Canada.

There are certain administrative activities that are taking place; one such activity is harmonizing the Category Control Numbers (CCN's, an internal terminology used for tracking) resulting in a combined Canadian Listing Directory. Any necessary revisions to your File will be notified and will be at no charge to you. We anticipate completing this transition by March 31, 2016.

Your Field Representative can assist you with any questions regarding the change in category. If you have additional questions please contact Vasilios Soupos via phone at (847) 664-3111, or email Vasilios.Soupos@ul.com.

Please share this Bulletin with other interested parties within your organization.

Sincerely,

**Issued under the joint responsibility of Underwriters Laboratories of Canada Inc. & UL LLC.
