CERTIFICATION BULLETIN CCH-2016-100

To: Subscribers/Listees to ULC's Listing Service for Power Ventilators for Commercial Kitchen Exhaust Systems (YZHWC)

Subject: Harmonization of Power Ventilators for Commercial Kitchen Exhaust Systems (YZHWC) with Power Ventilators for Restaurant Exhaust Appliances Certified for Canada Certified for Canada (YZHW7)

UL as an enterprise is striving to offer to its customers combined Canadian Certification Directories. In doing so, Underwriters Laboratories of Canada Inc. (ULC) and UL LLC are harmonizing their Canadian Certification categories in order to come up with a single Canadian Listing Directory for certified (Listed) products.

Consequently, UL is harmonizing the certification category Power Ventilators for Commercial Kitchen Exhaust Systems (YZHWC) with the certification category Power Ventilators for Restaurant Exhaust Appliances Certified for Canada Certified for Canada (YZHW7). As the category YZHWC is being harmonized, the Product Listings that are currently certified under YZHWC will now be under YZHW7.

The harmonized categories will represent manufacturers who received authorization from ULC and UL LLC to use their respective marks for Canada.

There are certain administrative activities that are taking place; one such activity is harmonizing the Category Control Numbers (CCN's, an internal terminology used for tracking) resulting in a combined Canadian Listing Directory. Any necessary revisions to your File will be notified and will be at no charge to you. We anticipate completing this transition by March 31, 2016.

Your Field Representative can assist you with any questions regarding the change in category. If you have additional questions please contact Angelo Sakellariou via phone at (847)664-2143, or email Angelo.Z.Sakellariou@ul.com.

Please share this Bulletin with other interested parties within your organization.

Sincerely,

**Issued under the joint responsibility of Underwriters Laboratories of Canada Inc. & UL LLC.
