CERTIFICATION BULLETIN 2016-01

Second Edition – ULC/ORD-C100-13 – Smoke Control System Equipment **REQUEST FOR COMMENTS - PROPOSED EXTENSION OF EFFECTIVE DATE**

To: Members of the ULC Standard Subcommittee on Control Units
Subscribers to UL's & ULC's Certification Service for UUKLC, UUKL7, UUKL8 and Other Interested Parties

This Bulletin is in continuation to ULC Certification Bulletin 2014-07 issued on October 28, 2014. An Industry File Review (IFR) is presently in effect to determine compliance with ULC/ORD-C100-13, 2nd Edition. The Effective Date for the File Review is June 16, 2016. UL has received feedback from industry requesting additional time to meet the new requirements.

In response to concerns raised by some manufacturers, UL is proposing an extension of the effective date from June 16, 2016 to December 16, 2016, to allow for the time needed to transition production to the latest update of the ORD.

Request for Comments

Comments Due: (30 days from date of bulletin)

Please provide your comments on the proposed change of the Effective Date for the 2nd edition of ULC/ORD-C100-13. Written comments should be sent by e-mail to the attention of Dan Kaiser at Daniel.J.Kaiser@ul.com. Please include your full name and company address to ensure a reply. Please note that comments may be made public.

All comments should be sent to arrive by **(30 days from date of bulletin)**. Unless specifically requested to do so, UL will not acknowledge comments indicating concurrence with this proposal. UL will review the responses and issue a subsequent bulletin announcing the outcome.

Thank you in anticipation for your communication on this subject.

Sincerely,

Underwriters Laboratories of Canada Inc.
