

CERTIFICATION BULLETIN 2012-06

Effective Date Announcement – CAN/CGSB 65.7-2007

Standard for Life Jackets

To: Subscribers to ULC's Certification Services for Life Jackets, CAN/CGSB 65.7-2007 and others interested.
ZDTQC - Personal Buoyant Water Safety Products

This Bulletin is in continuation to Transport Canada's letter under reference A2100-141-4U / RDIMS#7596563 issued on June 5, 2012 announcing an extension to the Certificate expiry date.

The AHJ, Transport Canada has decided to extend all current ULC Listed Life jacket certificates to Dec. 31, 2012. As such it is necessary to extend the effective date of the subject file review.

Please note that you must contact Transport Canada to extend your certificate(s) beyond your current expiry date of June 30, 2012.

A 6 month extension of the effective date to Dec. 31, 2012 is being processed to allow your Life Jackets to remain ULC Listed. ULC Listed production without a valid Transport Canada certificate is not permitted.

An Industry File Review (IFR) was initiated to determine compliance to the new and/or revised requirements. Details of the IFR and changes to the Standard (Summary of Requirements) are available on UL's IFR Website (<http://ifr.ul.com/>).

The effective date, for currently Listed products to comply with the new and/or revised requirements in the Standard CAN/CGSB 65.7-2007, will be **Dec 31, 2012**.

Any questions concerning the above should be directed to Mr. Gunsimar Paintal, Regional Quality Manager & ULC Mark Program Owner at +416.288.2217.

Sincerely,

Underwriters Laboratories of Canada Inc.
