## CERTIFICATION BULLETIN 2012-07

---

### **CAN/ULC-S663-11, 1<sup>ST</sup> Edition of the Standard for Spill Containment Devices for Flammable and Combustible Liquids Aboveground Storage Tanks**

---

**To:** Subscribers to ULC's Certification Service for Spill Containment Devices in accordance with ULC/ORD-C142.19-1994 and Others Interested.

- EGYHC – Spill Containment Devices for Flammable Liquid Storage Tanks
- EEEVC – Aboveground Tanks
- EEFLC – Contained Aboveground Tank Assemblies
- EEGXC – Aboveground Utility Tanks

---

This Bulletin is a follow-up to ULC Standards Bulletin 2011-10, announcing the publication of the 1<sup>st</sup> Edition of the Standard for Spill Containment Devices for Flammable and Combustible Liquids Aboveground Storage Tanks, CAN/ULC-S663-11.

ULC Inc. & UL LLC's attempt to harmonize US and Canadian spill containment requirements have taken longer than anticipated and has resulted in a delay in the initiation of the Industry File Review for CAN/ULC-S663-11 Standard that was published over a year ago.

CAN/ULC-S663-11 Standard will be superseding the requirements in ULC/ORD-C142.19-1994 once the Industry File Review has been initiated and a follow-up Certification Bulletin will be issued advising of the adoption of CAN/ULC-S663-11 Standard and the effective date of compliance for all ULC Listees. In the interim, ULC will be accepting certification requests for compliance to the requirements of CAN/ULC-S663-11 Standard.

Any questions concerning the above should be directed to Mr. Gunsimar Paintal, Regional Quality Manager & ULC Mark Program Owner, +416.288.2217.

Sincerely,

**Underwriters Laboratories of Canada Inc.**
