CERTIFICATION BULLETIN 2009-32

To: Subscribers to ULC's Listing Service for Speakers and Accessories for Fire Alarm Systems (UUMWC), Audible Signal Appliances and Accessories, Fire Alarm (ULSZC) Audible Signal Appliances, Fire Alarm, for Use in Hazardous Locations (UGKZC) and Visual and Visual-Audible Signal Appliances, Fire Alarm, for Use in Hazardous Locations (UEJZC)

Subject: Request for Comments to Extend the Effective Date for Speakers for Fire-Protective Signaling Services. Reference Certification Bulletin 2007-25

The Third edition of the Standard for Speakers for Fire Alarm Systems, Including Accessories, CAN/ULC-S541 dated February 2007 contains revised requirements that become effective on December 31, 2009.

Due to the concerns expressed by a significant representation of the manufacturing community regarding the number of products that need to be re-tested and the potential need to revise product documentation, UL is proposing to extend the effective date until September 1, 2010.

REQUEST FOR COMMENTS

Please provide your comments on the proposed extension of the effective date. Written comments should be sent by regular mail, or e-mail to the attention of Daniel J. Kaiser daniel.j.kaiser@us.ul.com at UL's Northbrook Office. If you respond by e-mail, please include your full name, title, company address, email address and phone number to ensure a reply. Please note that comments may be made public.

All comments should be sent to arrive by December 16, 2009. Unless specifically requested to do so, UL will not acknowledge comments indicating concurrence with this proposal.

Thank you in advance for your communication on this topic.
