STANDARDS BULLETIN 2009-08

Second Edition CAN/ULC-61230-09

LIVE WORKING – PORTABLE EQUIPMENT FOR GROUNDING AND BONDING

ULC is pleased to announce the publication the Second Edition of CAN/ULC-61230-09 (CEI/IEC 61230:2008, IDT), Live Working – Portable Equipment for Grounding and Bonding. This Standard has been approved by the ULC Committee on Live Working, and has been published under the date of March 2009.

This is an adoption, without Canadian Deviations, of the International Electrotechnical Commission CEI/IEC 61230:2008, Live working - Portable equipment for earthing or earthing and short-circuiting.

This National Standard of Canada is applicable to portable equipment, with or without matching connection points, for temporary grounding (earthing) or grounding (earthing) and short-circuiting of electrically isolated or de-energized a.c. and d.c. installations, transmission and distribution networks, whether they are overhead or underground or of low or high voltage. This standard covers equipment comprising grounding (earthing) or a short-circuiting or grounding (earthing) and short-circuiting device and insulating component.

If you require any additional information, please contact Keith Jansa at 613-755-2729 ext. 6227 or by email at: Keith.Jansa@ca.ul.com

This standard can be ordered for \$276.00 CAN (Hardcopy) from the ULC website (www.ulc.ca) ULC online store.

Yours truly,

UNDERWRITERS LABORATORIES OF CANADA
