STANDARDS BULLETIN 2009-11

Second Edition of CAN/ULC-60855-09

INSULATING FOAM-FILLED TUBES AND SOLID RODS FOR LIVE WORKING

ULC is pleased to announce the publication of the Second Edition, CAN/ULC-60855-09 (CEI/IEC 60855:1985, MOD), Insulating Foam-Filled Tubes and Solid Rods for Live Working. This Standard has been approved by the ULC Committee on Live Working, and has been published under the date of March 2009.

This is an adoption, with Canadian Deviations, of the International Electrotechnical Commission Standard CEI/IEC 60855:1985.

This National Standard of Canada is applicable to insulating foam-filled tubes and solid rods made of synthetic materials and intended for tools and equipment for live work on systems operating at voltages above 1 kV.

Separate special technical standards give details of tests for fittings and attachments to these poles and rods, adaptable tools and complete tools.

If you require any additional information, please contact Keith Jansa at 613-755-2729 ext. 6227 or by email at: Keith.Jansa@ca.ul.com

This standard can be ordered for \$186.00 CAN (Hardcopy) from the ULC website (www.ulc.ca) ULC online store.

Yours truly,
