STANDARDS BULLETIN 2009-26

Second Edition CAN/ULC-60895-09

LIVE WORKING – CONDUCTIVE CLOTHING FOR USE AT NOMINAL VOLTAGE UP TO 800 KV A.C. AND \pm 600 KV D.C.

ULC is pleased to announce the publication of the Second Edition of CAN/ULC-60895-09 (CEI/IEC 60895:2002, MOD), Live Working – Conductive Clothing For Use at Nominal Voltage Up to 800 kV a.c. and \pm 600 kV d.c. This Standard has been approved by the ULC Committee on Live Working, and has been published under the date of July 2009.

This is an adoption, with Canadian deviations, of the International Electrotechnical Commission Standard CEI/IEC 60895:2002.

This National Standard of Canada is applicable to conductive clothing, either assembled from component parts or forming a single complete clothing, worn by (electrically) skilled persons during live working (especially bare-hand working) at a nominal power system voltage up to 800 kV a.c. and \pm 600 kV d.c. It is applicable to conductive jackets, trousers, coveralls (one-piece clothing), gloves or mitts, hoods, shoes, overshoe socks and socks.

If you require any additional information, please contact Keith Jansa at (613) 755-2729 ext. 6227 or at email address: Keith.Jansa@ca.ul.com

This standard can be ordered for \$180.00 CAN (Hardcopy) from the ULC website (www.ulc.ca) online store.

Yours truly,
