## STANDARDS BULLETIN 2009-37

### First Edition CAN/ULC-62192-09

#### LIVE WORKING – INSULATING ROPES

ULC is pleased to announce the publication of the First Edition of CAN/ULC-62192-09, Live Working – Insulating Ropes (CEI/IEC 62192:2009, MOD). This Standard has been approved by the ULC Committee on Live Working, and has been published under the date of November 2009.

This National Standard is an adoption, with Canadian deviations, of the International Electrotechnical Commission Standard, CEI/IEC 62192:2009.

This National Standard covers insulating ropes that are utilized during live working procedures in contact with parts of installations operating at voltages up to and including 800 kV r.m.s.

Insulating ropes for live working procedure under rain and/or d.c. conditions are not covered by this Standard.

If you require any additional information, please contact Keith Jansa at (613) 755-2729 ext. 6227 or at email address: [Keith.Jansa@ca.ul.com](mailto:Keith.Jansa@ca.ul.com)

This standard can be ordered for \$126.00 CAN (Hardcopy) from the ULC website at [www.ulc.ca](http://www.ulc.ca) by clicking on Order Standards and Directories followed by selecting ULC Online Store.

Yours truly,

UNDERWRITERS LABORATORIES OF CANADA
