STANDARDS BULLETIN 2010-28

First Edition of CAN/ULC-60832-1-10 (MOD)
**Standard on Live working - Insulating sticks and attachable devices -
Part 1: Insulating sticks**

ULC Standards is pleased to announce the publication the First Edition of CAN/ULC-60832-1-10, Standard on Live working - Insulating sticks and attachable devices - Part 1: Insulating sticks, and has been published under the date of December 2010.

This National Standard of Canada gives the essential requirements for insulating sticks for live working for use on a.c. electrical installations.

The requirements for devices that can be attached onto and removed from the fitting of the insulating sticks are covered in CAN/ULC 60832-2-10.

The products designed and manufactured according to this standard contribute to the safety of the users provided they are used by skilled persons, in accordance with safe methods of work and the instructions for use. More information about safe work methods and the use of Insulating Sticks can be found in CAN/ULC-S801 Standard on Electric Utility Workplace Electrical Safety for Generation, Transmission and Distribution.

CAN/ULC-60832-1-10 is a Canadian adoption with modifications of the First Edition of IEC 60832-1:2010.

If you require any additional information, please contact Wouter van Halderen at 613-755-2729 or by email at: Wouter.vanHalderen@ca.ul.com.

This standard can be ordered for \$190.00 CAN (Hardcopy) from the ULC website (www.ulc.ca) ULC online store.

Yours truly,

ULC Standards
