STANDARDS BULLETIN 2011-01

AMENDMENT TO EDITION OF A STANDARD

Fifth Edition CAN/ULC-S524-06

INSTALLATION OF FIRE ALARM SYSTEMS

ULC Standards is pleased to announce the release of Amendment 1 to the Fifth Edition of CAN/ULC-S524-06, Installation of Fire Alarm Systems. This Amendment has been approved by the ULC Committee on Fire Alarm and Life Safety Equipment and Systems, and has been published under the date of February 2011.

This Standard covers the requirement for the design and installation of fire alarm systems with or without voice communications capability. Amendment 1 contains revisions and additional requirements to the Standard that are intended to clarify the provisions in the last Edition. Some of the highlights of the Amendment are as follows:

- A Note on the Scope, that the Standard is intended to apply to both required and voluntary installations;
- New requirements on power and audio buss installations in distributed systems;
- New requirements on the use of optical fibre cable;
- Corrections on drawings;
- Note concerning the installation of duct detectors; and
- Clarification on the installation of visible signals.

CAN/ULC-S524-06 is now being re-published to include Amendment 1, and all users of this Standard are advised to obtain this complete version. This standard is available for purchase at \$ 235.00 for soft copy or \$ 238.00 for hard copy from the ULC website (www.ulc.ca) ULC online store.

Should you require any additional information, please contact Tess Espejo at (416) 757-5250 ext. 61212 or at email address: Theresa.Espejo@ca.ul.com.

Yours truly,

ULC STANDARDS
