### First Edition CAN/ULC-S668-12

#### STANDARD FOR LINERS USED FOR SECONDARY CONTAINMENT OF ABOVEGROUND FLAMMABLE AND COMBUSTIBLE LIQUID TANKS

---

ULC Standards is pleased to announce the publication of the First Edition CAN/ULC-S668-12, Standard for Secondary Containment of Aboveground Flammable and Combustible Liquid Tanks. This National Standard of Canada was developed and approved by the ULC Standards Committee on Stationary Nonmetallic Storage Containers for Flammable and Combustible Liquids.

This Standard sets forth minimum requirements for the material properties and performance of liners used for secondary containment under and around the area of tanks that are installed aboveground for the storage of flammable and combustible liquids. These liners are intended for permanent installation to contain spills or leakage of product for a temporary period. In the event of spills, the removal and clean-up should be done within a period not exceeding 14 days.

These secondary containment liners are not intended for long term or permanent storage of product spills or leakage. Adequate means of monitoring and clean-up is required along with proper use and installation in accordance with Codes and regulations of the authority having jurisdiction. In case of product spills or leakage, the secondary containment liners shall be re-evaluated according to the requirements of the authority having jurisdiction.

A secondary containment liner is defined in the Standard as one of the following types:

- A Reinforced coated fabrics or polymer films laminated onto textile substrates;
- B Non-reinforced - polymer films or extruded polymeric panels; and
- C Spray-on-type - secondary containment liners intended to be field installed using spray equipment and requiring geotextile or other substrate material for support.

CAN/ULC-S668-12 is available for purchase at \$267.00 for soft copy and \$320.40 for hard copy from the ULC website ([www.ulc.ca](http://www.ulc.ca)) ULC online store. Should you require additional information, please contact Tess Espejo at (416) 288-2212, or by email at [Theresa.Espejo@ul.com](mailto:Theresa.Espejo@ul.com).

Yours truly,  
ULC STANDARDS
