## **STANDARDS BULLETIN 2013-17**

NEW EDITION OF STANDARD

---

### **Third Edition CAN/ULC-S110-13**

#### **STANDARD METHODS OF TEST FOR AIR DUCTS**

---

ULC Standards is pleased to announce the publication of the Third Edition of CAN/ULC-S110-13, Standard Methods of Test for Air Ducts. This Standard has been approved by the ULC Standards Committee on Fire Tests and has been published under the date of July 2013.

The requirements in this Standard apply to materials for the fabrication of air duct systems for use in accordance with the requirements of the National Building Code of Canada. The materials covered by these requirements include preformed lengths of flexible or rigid ducts, materials in the form of boards for field fabrication of lengths of rigid ducts, and preformed flexible connectors.

This edition includes reference to an Appendix which forms a mandatory part of this Standard. Appendix A provides further guidance on the mounting methods of test samples for the surface burning characteristics test as to ensure a uniform procedure where comparative information between similar products is required.

If you require any additional information, please contact Mary Huras at (613) 755-2729 ext. 61425 or by email at [Mary.Huras@ul.com](mailto:Mary.Huras@ul.com).

This Standard can be ordered for \$210.00 CAN (Hardcopy) or \$175.00 CAN (PDF) from the ULC Standards website at [www.ulc.ca](http://www.ulc.ca) and then click on Purchase ULC Standards Material.

Yours truly,

ULC STANDARDS

G. Rae Dulmage
