INFORMATION BULLETIN 2013-14

First Edition of CAN/ULC-S677-14

Standard for ***Concrete Encased Steel Aboveground Tank Assemblies for Flammable Liquids and Combustible Liquids,***

ULC Standards is pleased to announce the development of the First Edition of CAN/ULC-S677-14 First Edition of the Standard for ***Concrete Encased Steel Aboveground Tank Assemblies for Flammable Liquids and Combustible Liquids,***

These requirements cover concrete encased tank assemblies, maximum capacity 40.000 L for outdoor aboveground storage of flammable and combustible liquids, such as gasoline, fuel oil, or similar products with a relative density no greater than 1.0

CAN/ULC-S677-14 will be based on and replace ULC-ORD-C142.5 Concrete Encased Steel Aboveground Tank Assemblies.

As a standards development organization (SDO) recognized in Canada as having the competence to develop National Standards of Canada, ULC is among the SDOs whose standards development work is eligible for funding from the Standards Council of Canada (SCC). SCC funding is specifically slotted for the review and update of various technical standards maintained by SCC-accredited SDOs that are referenced in Canadian federal regulations and which have been confirmed by government departments as being of ongoing significance to their regulatory mandates.

If you require any additional information, please contact Wouter van Halderen at 613-755-2729 ext. 61427 or by email at: Wouter.vanHalderen@ul.com.

Yours truly,

ULC Standards
