STANDARDS BULLETIN 2014-05

NEW EDITION

Third Edition of CAN/ULC-60743-14 (CEI/IEC 60743:2013, IDT)

LIVE WORKING – TERMINOLOGY FOR TOOLS, DEVICES AND EQUIPMENT

ULC Standards is pleased to announce the publication of the Third Edition of CAN/ULC-60743-14 (CEI/IEC 60743:2013, IDT) Live working – Terminology for tools, devices and equipment. This Standard has been approved by the ULC Standards Committee on Live Working (S400A) and has been published under the date of May 2014.

This identical adoption of the Third Edition is an update to the Second Edition. The changes include simplification of Clause 2 *General Concepts and Presentation* with a reference directly to IEC 60050-651 – International Electrotechnical Vocabulary Part 651: Live working. As well, some definitions have been moved to specific existing clauses.

This International Standard applies to the terminology used to describe tools, devices, equipment and methods used in live working. It standardizes the name of tools, devices and equipment and permits their identification by providing definitions and illustrations.

If you require any additional information, please contact Alyson Hawkins at 613-755-2729 ext. 61437 or by email at Alyson.Hawkins@ul.com.

This Standard can be ordered for \$340.00 CAN (Hardcopy) or \$340.00 CAN (PDF) from the ULC Standards website at www.ulc.ca and select *ULC Standards*. Once on the ULC Standards homepage, select *Sales of ULC Standards Materials* for further details.

Yours truly,

ULC Standards
