CERTIFICATION BULLETIN CCH-2016-134

To: Subscribers/Listees to ULC's Listing Service for Proportioners, Foam Concentrate (GHXVC)

Subject: Harmonization of Proportioners, Foam Concentrate (GHXVC) with the new certification category Proportioners, Foam Concentrate Certified for Canada (GHXV7)

UL as an enterprise is striving to offer to its customers combined Canadian Certification Directories. In doing so, Underwriters Laboratories of Canada Inc. (ULC) and UL LLC are harmonizing their Canadian Certification categories in order to come up with a single Canadian Listing Directory for certified (Listed) products.

Consequently, UL is harmonizing the certification category Proportioners, Foam Concentrate (GHXVC) by establishing a new certification category Proportioners, Foam Concentrate Certified for Canada (GHXV7). As the category GHXVC is being harmonized, the Product Listings that are currently certified under GHXVC will now be under GHXV7.

The harmonized categories will represent manufacturers who received authorization from ULC and shall continue using the authorized mark for Canada.

There are certain administrative activities that are taking place; one such activity is creating a new Category Control Numbers (CCN's, an internal terminology used for tracking). Any necessary revisions to your File will be notified and will be at no charge to you. We anticipate completing this transition by September 30, 2016.

Your Field Representative can assist you with any questions regarding the change in category. If you have additional questions please contact Monica Westphal via phone at (847) 664-1228, or email Monica.Westphal@ul.com.

Please share this Bulletin with other interested parties within your organization.

Sincerely,

**Issued under the joint responsibility of Underwriters Laboratories of Canada Inc. & UL LLC.
