## CERTIFICATION BULLETIN CCH-2017-193

---

**To: Subscribers/Listees to ULC's Listing Service for Coatings (CATXC)**

---

**Subject: Harmonization of Coatings (CATXC) with the new certification category Mastic and Intumescent Coatings Certified for Canada (CDWZ7)**

---

UL as an enterprise is striving to offer to its customers combined Canadian Certification Directories. In doing so, Underwriters Laboratories of Canada Inc. (ULC) and UL LLC are harmonizing their Canadian Certification categories in order to come up with a single Canadian Listing Directory for certified (Listed) products.

Consequently, UL is harmonizing the certification category Coatings (CATXC) by establishing a new certification category Mastic and Intumescent Coatings Certified for Canada (CDWZ7). As the category CATXC is being harmonized, the Product Listings that are currently certified under CATXC will now be under CDWZ7.

The harmonized categories will represent manufacturers who received authorization from ULC and shall continue using the authorized mark for Canada.

There are certain administrative activities that are taking place; one such activity is creating a new Category Control Numbers (CCN's, an internal terminology used for tracking). Any necessary revisions to your File will be notified and will be at no charge to you. We anticipate completing this transition by May 15, 2017.

Your Field Representative can assist you with any questions regarding the change in category. If you have additional questions please contact Noelle McMahan via phone at 847-664-2069, or email [Noelle.McMahan@ul.com](mailto:Noelle.McMahan@ul.com).

Please share this Bulletin with other interested parties within your organization.

Sincerely,

**Issued under the joint responsibility of Underwriters Laboratories of Canada Inc. & UL LLC.
