Other Interested Parties

---

Underwriters Laboratories of Canada Inc. (ULC) is pleased to announce the publication of the ORD ULC/ORD-C634:2016, 2<sup>nd</sup> Edition – Connectors and Switches for Use with Burglar Alarm Systems.

The ORD covers requirements for connectors and switches for use with burglar-alarm systems in mercantile premises, mercantile safes and vaults, bank safes and vaults, government and corporate locations, and residences. They are intended to be used in circuits of limited energy, for these applications, in accordance with CSA C22.1, Canadian Electrical Code, Part I, Safety Standard for Electrical Installations.

The products covered by these requirements are intended to be installed in accordance with CAN/ULC-S302, Standard for the Installation, Inspection and Testing of Intrusion Alarm Systems.

ULC has adopted the provisions of this Edition of the Standard and all new submittals will be investigated in accordance with these requirements.

All currently listed Alarm Systems are required to comply with these requirements by the effective date in order for them to maintain their UL Listings. Noncompliance may result in the withdrawal of their UL Listing and consequently their ability to use the respective UL Marks. You will receive a separate notification for the effective date as per the Industry File Review / Continuing Certification process.

This ORD can be ordered in English only for \$175.00 CAD (PDF) or \$200.00 CAD (Hardcopy) from the ULC Standards website at [www.ulc.ca](http://www.ulc.ca) and then click on purchase ULC Standards Material.

This Certification Bulletin may be forwarded to others who may have an interest in this document.
