STANDARDS BULLETIN 2017-21

First Edition CAN/ULC-S675.2-14-REV1

STANDARD FOR NONVOLUMETRIC PRECISION LEAK DETECTION DEVICES FOR UNDERGROUND AND ABOVEGROUND STORAGE TANKS AND PIPING FOR FLAMMABLE AND COMBUSTIBLE LIQUIDS

ULC Standards is pleased to announce the publication of Revision 1 to the First Edition of CAN/ULC-S675.2, Standard for Nonvolumetric Precision Leak Detection Devices for Underground and Aboveground Storage Tanks and Piping for Flammable and Combustible Liquids. It was approved by the ULC Committee on Fueling Accessories for Flammable and Combustible Liquids, and is published under the date of October 2017.

This Standard provides minimum requirements for primary containment leak detection that uses qualitative characteristics to detect leaks in the primary containment. These requirements do not cover quantitative volumetric leak detection devices. The requirements of this Standard apply to newly-manufactured products. The requirements of this Standard do not apply to installation and monitoring procedures.

The following changes have been incorporated into this edition of the Standard:

- Revised Reference Publication Dates in Section 2.

This Standard can be ordered for CAD \$210.00 (hardcopy) or CAD \$175.00 (PDF format) through our website at www.ulc.ca and by selecting the link to *ULC Standards*. Once on the ULC Standards homepage, select *Sales of ULC Standards Materials* for further details.

Should you require additional information, please contact Caitlin D'Onofrio at (613) 755.2729 ext. 61430 or by email at Caitlin.DOnofrio@ul.com

Yours truly,
ULC Standards
