STANDARDS BULLETIN 2018-12

NEW EDITION

Second Edition of CAN/ULC-S610

STANDARD FOR FACTORY-BUILT FIREPLACE SYSTEMS

ULC Standards is pleased to announce the publication of the Second Edition of CAN/ULC-S610, Standard for Factory-Built Fireplace Systems. This Standard has been approved by the ULC Standards Committee on Factory-Built Fireplaces, Chimneys, and Vents (S600E) and has been published under the date of July, 2018.

This Standard applies to factory-built fireplace systems capable of utilizing solid fuels, as specified by the manufacturer, and intended for provision of supplementary heating in buildings. These fireplace systems include a fire chamber assembly, chimney sections, a roof assembly, and other associated parts. Factory-built fireplace systems covered by this standard are not for use with masonry chimneys.

This Second Edition National Standard of Canada is based on, and now supersedes, the First Edition.

The changes in this Second Edition CAN/ULC-S610 include:

- Revisions to the requirements for marking and label performance;
- Updates to the installation instructions requirements;
- Alignment of performance requirements for installations in buildings and transportable homes; and
- Addition of optional test requirements for outdoor installations.

This Standard can be ordered for \$175.00 CAN (Hardcopy) or \$125.00 CAN (PDF) from the ULC Standards website at www.ulc.ca/ulcstandards/. Select *Sales of ULC Standards Materials* for further details.

If you require any additional information, please contact Gillian Wintonic at 613 755 2729 ext. 61427 or by email at Gillian.Wintonic@ul.com.

Yours truly,

ULC Standards
