STANDARDS BULLETIN 2018-23

Third Edition ANSI/CAN/UL/ULC 1316:2018

STANDARD FOR FIBRE REINFORCED UNDERGROUND TANKS FOR FLAMMABLE AND COMBUSTIBLE LIQUIDS

ULC Standards is pleased to announce the publication of Third Edition Joint National Standard of Canada (NSC) and American National Standard (ANSI), ANSI/CAN/UL/ULC 1316:2018, Standard for Fibre Reinforced Underground Tanks for Flammable and Combustible Liquids. This Joint ANSI and NSC have been approved by the Joint UL/ULC Technical Committee on Flammable and Combustible Liquid Underground Tanks, and have been published under the date of November 21, 2018.

This Standard sets forth minimum design and construction requirements for fibre reinforced plastic, non-pressure tanks that are used for the underground storage of flammable and combustible liquids, such as; petroleum products, oxygenated fuel blends, oxygenates, and other flammable and combustible liquids. This Standard covers tanks of either single, double or multiple wall construction, and where the primary tank may have a single compartment or have multiple compartments.

This Third Edition Joint ANSI and NSC has harmonized the requirements of, and now supersedes, the following documents:

- CAN/ULC-S615-14, Standard for Fibre Reinforced Underground Tanks for Flammable and Combustible Liquids; and
- UL 1316, Standard for Glass-Fiber-Reinforced Plastic Underground Storage Tanks for Petroleum Products, Alcohols, and Alcohol-Gasoline Mixtures.

This Standard can be ordered for CAD \$668.71 (hardcopy) or CAD \$535.50 (PDF format) through our website at www.ulc.ca and by selecting the link to *ULC Standards*. Once on the ULC Standards homepage, select *Sales of ULC Standards Materials* for further details.

Should you require additional information, please contact Caitlin D'Onofrio at (613) 755.2729 ext. 61430 or by email at Caitlin.DOnofrio@ul.com

Yours truly,

ULC Standards
