STANDARDS BULLETIN 2019-04

REVISION OF STANDARD

Revision of Sixth Edition CAN/ULC-S602:2014

STANDARD FOR ABOVEGROUND STEEL TANKS FOR FUEL OIL AND LUBRICATING OIL

ULC Standards is pleased to announce the publication of a Revision to the Sixth Edition of CAN/ULC-S601, Standard for Aboveground Steel Tanks for Fuel Oil and Lubricating Oil. This Standard has been approved by the ULC Technical Committee on Stationary Steel Storage Containers for Flammable and Combustible Liquids, and have been published under the date of March 2019.

This Standard covers the design and construction of aboveground steel non-pressure tanks intended for installation inside or outside buildings and for the storage of Combustible liquid, intended to be used as heating fuel and/or generator fuel, and Lubricating oil.

In addition to this Standard's traditional safety requirements that primarily evaluate structural integrity and mitigate fire and environmental hazards from loss of liquid containment under expected normal conditions, optional construction and/or performance requirements, and associated ratings intended to address more severe conditions associated with the effects of Climate Change are included in Appendix D.

The following revisions have been incorporated into this edition of the Standard:

- Scope modifications to address Optional Climate Change Adaptation Requirements; and
- Added Appendix D (Informative) - Optional Climate Change Adaptation Requirements.

This Standard can be ordered for CAD \$342.00 (hardcopy) or CAD \$285.00 (PDF format) through our website at www.ulc.ca and by selecting the link to *ULC Standards*. Once on the ULC Standards homepage, select *Sales of ULC Standards Materials* for further details.

Should you require additional information, please contact Caitlin D'Onofrio at (613) 755.2729 ext. 61430 or by email at Caitlin.DOnofrio@ul.com

Yours truly,

ULC Standards
