## **STANDARDS BULLETIN 2018-15**

NEW STANDARD

---

### **First Edition of CAN/ULC-S573:2018**

#### **STANDARD FOR INSTALLATION OF ANCILLARY DEVICES CONNECTED TO FIRE ALARM SYSTEMS**

---

ULC Standards is pleased to announce the publication of the First Edition of CAN/ULC-S573:2018, Standard for Installation of Ancillary Devices Connected to Fire Alarm Systems. This Standard has been approved by the ULC Standards Committee on Fire Alarm and Life Safety Equipment and Systems and has been published under the date of December 2018.

This Standard describes the requirements for the application and installation of ancillary devices which interact with a fire alarm system. This Standard shall be applied in conjunction with CAN/ULC-S524, Standard for Installation of Fire Alarms Systems. This Standard is intended to apply to ancillary device installations for both required and voluntary fire alarm system installations. The installation of ancillary devices not covered by these requirements shall be in accordance with good engineering practice and manufacturer's installation guidelines.

For any additional information, please contact Tess Espejo at (416) 288-2212 or by email at [Theresa.Espejo@ul.com](mailto:Theresa.Espejo@ul.com).

This Standard can be ordered for \$175.00 CAD (Hardcopy) or \$125.00 CAD (PDF) from the ULC Standards website at <http://canada.ul.com/ulcstandards/>. Click on *Sales of ULC Standards Materials* for more information.

Yours truly,

ULC Standards

Theresa (Tess) Espejo
