STANDARDS BULLETIN 2019-27

NEW EDITION

Third Edition of CAN/ULC-S632

STANDARD FOR HEAT SHIELDS

ULC Standards is pleased to announce the publication of the Third Edition of CAN/ULC-S632, Standard for Heat Shields. This Standard has been approved by the ULC Standards Committee on Factory-Built Fireplaces, Chimneys, and Vents (S600E) and has been published under the date of March, 2019.

This Standard applies to the construction and performance of heat shields intended to reduce the specified minimum clearances for heat producing appliances to combustible vertical construction assemblies (ie. walls, partitions). The requirements apply to regular and corner installations only and do not cover alcove installations.

This Third Edition National Standard of Canada is based on, and now supersedes, the Second Edition of ULC-S632, Standard for Heat Shields.

The changes in this Third Edition CAN/ULC-S632 include:

- Revisions to the requirements for marking;
- Updates to the installation instructions requirements; and
- Revisions to the requirements for ultraviolet light and water test (for outdoor heat shields only).

This Standard can be ordered for \$145.20 CAN (Hardcopy) or \$121.00 CAN (PDF) from the ULC Standards website at www.ulc.ca/ulcstandards/. Select *Sales of ULC Standards Materials* for further details.

If you require any additional information, please contact Gillian Wintonic at 613 755 2729 ext. 61427 or by email at Gillian.Wintonic@ul.com.

Yours truly,

ULC Standards
