STANDARDS BULLETIN 2019-28

NEW EDITION

FOURTH EDITION CAN/ULC-S527:2019

STANDARD FOR CONTROL UNITS FOR FIRE ALARM SYSTEMS

ULC Standards is pleased to announce the publication of the Fourth Edition of CAN/ULC-S527:2019, Standard for Control Units for Fire Alarm Systems. This Standard has been approved by the ULC Standards Technical Committee on Fire Alarm and Life Safety Equipment and Systems, and has been published under the date of April 5, 2019.

This Standard covers control units, fire alarm systems and control unit accessories for use in accordance with the Standard for the Installation of Fire Alarm Systems, CAN/ULC-S524, in accordance with CSA-C22.1, Safety Standard for Electrical Installations, Canadian Electrical Code, Part I; and the National Building Code of Canada. This Standard also covers smoke control features, releasing device service and standalone power supplies. Where a fire alarm system is shared by other systems for other than fire alarm operation, the non-fire functions shall not interfere with the required operation of the fire alarm system.

For any additional information, please contact Tess Espejo at 416-288-2212 or by email at Theresa.Espejo@ul.com.

This Standard can be ordered for \$275.00 CAD (Hardcopy) or \$225.00 CAD (PDF) from the ULC Standards website at www.shopulstandards.com. Click on *Sales of ULC Standards Materials* for more information.

Yours truly,

ULC Standards
