CERTIFICATION BULLETIN 2021-05

ULC/ORD-C795 (2021) 1st Edition - Commercial - Industrial Gas - Fired Package Boilers

To: Members of the ULC Advisory Council of Underwriters Laboratories of Canada
Subscribers to ULC's Certification Service for-
KVTR7 - Gas-fired Boiler Assemblies Certified for Canada
KWGZ7- Gas-Oil-fired Boiler Assemblies Certified for Canada
Others Interested

Underwriters Laboratories of Canada Inc. (ULC) is pleased to announce the publication of the ORD ULC/ORD-C795 (2021), 1st Edition - Commercial - Industrial Gas - Fired Package Boilers.

These requirements apply to factory-built gas-fired package boilers having input ratings of more than 117,228 W (400,000 Btu/h), per individual combustion chamber, and intended primarily for commercial and industrial installation. In addition, these also apply to all high-pressure steam and high temperature water gas-fired boiler assemblies regardless of kW (Btu/h) input.

Package boilers covered by these requirements are designed to be automatically operated without a competent attendant being constantly on duty at the burners while the appliances are in operation.

Additional installation and operation requirements are available for commercial-industrial gas-fired package boilers as defined by the Natural gas and propane installation code, CSA B149.1, and the Code for the field approval of fuel-related components on appliances and equipment, CSA B149.3, as applicable.

ULC has adopted the provisions of this Edition of the ORD and all new submittals will be investigated in accordance with these requirements.

This ORD can be ordered in English only in both pdf file format or hardcopy from the ULC Standards website at <https://canada.ul.com/ulcstandards/salesofulcstandardsmaterials/>.

This Certification Bulletin may be forwarded to others who may have an interest in this document.

Any questions concerning the above should be directed to Mr. Gunsimar Paintal, at 416-288-2217 or Gunsimar.Paintal@ul.com.

Sincerely,

Underwriters Laboratories of Canada Inc.
