CERTIFICATION BULLETIN CCH-2022-291

To: Subscribers/Listees to ULC's Listing Service for Fittings, Miscellaneous (HKOXC)

Subject: Harmonization of Fittings, Miscellaneous (HKOXC) with Fittings, Cast Iron, Ductile Iron, Malleable Iron and Bronze Certified for Canada (HHXX7) and Flow Detection and Test Assemblies Certified for Canada (VEOY7).

UL as an enterprise is striving to offer to its customers combined Canadian Certification Directories. Continuing with the effort, Underwriters Laboratories of Canada Inc. (ULC) and UL LLC are harmonizing their Canadian Certification categories in order to come up with a single Canadian Listing Directory for certified (Listed) products.

Consequently, UL is harmonizing the certification category Fittings, Miscellaneous (HKOXC) with the certification category Fittings, Cast Iron, Ductile Iron, Malleable Iron and Bronze Certified for Canada (HHXX7) and Flow Detection and Test Assemblies Certified for Canada (VEOY7). As the category HKOXC is being harmonized, the Product Listings and/or designs that are currently certified under HKOXC will now be under HHXX7 & VEOY7.

The harmonized categories will represent manufacturers who received authorization from ULC and UL LLC to use their respective marks for Canada.

There are certain administrative activities that are taking place; one such activity is harmonizing the Category Control Numbers (CCN's, an internal terminology used for tracking) resulting in a combined Canadian Listing Directory. Any necessary revisions to your File will be notified and will be at no charge to you. We anticipate completing this transition by October 14, 2022.

Your Field Representative can assist you with any questions regarding the change in category. If you have additional questions please contact Eric Jacobson via phone at 1(847) 664-8253, or email Eric.Jacobson@ul.com.

Please share this Bulletin with other interested parties within your organization.

Sincerely,

**Issued under the joint responsibility of Underwriters Laboratories of Canada Inc. & UL LLC.
