CERTIFICATION BULLETIN CCH-2023-323

To: Subscribers/Listees to ULC's Listing Service for Hose Assemblies for Fire Extinguishers - Component (GLUXC)

Subject: Harmonization of Hose Assemblies for Fire Extinguishers - Component (GLUXC) with Hose Assemblies for Fire Extinguishers - Component Certified for Canada (GLUX8)

UL as an enterprise is striving to offer to its customers combined Canadian Certification Directories. Continuing with the effort, Underwriters Laboratories of Canada Inc. (ULC) and UL LLC are harmonizing their Canadian Certification categories in order to come up with a single Canadian Listing Directory for certified (Listed) products & recognized components.

Consequently, UL is harmonizing the certification category Hose Assemblies for Fire Extinguishers - Component (GLUXC) with the certification category Hose Assemblies for Fire Extinguishers - Component Certified for Canada (GLUX8). As the category GLUXC is being harmonized, the Product Listings that are currently certified under GLUXC will now be under GLUX8 as recognized components.

One of the significant changes of this harmonization is that these products were Listed as end products vs components. The harmonization of these categories aligns the certification programs and moving forward these products will bear the recognized component  mark. There is no other change to the product (component).

For ULC Listed products that are also certified for US as recognized components, instead of having a  Mark and a  Mark, the consolidated  Mark can be used after the transition takes effect.

The harmonized categories will represent manufacturers who received authorization from ULC and UL LLC to use their respective marks for Canada.

There are certain administrative activities that are taking place; one such activity is harmonizing the Category Control Numbers (CCN's, an internal terminology used for tracking) resulting in a combined Canadian Listing Directory. Any necessary revisions to your File will be notified and will be at no charge to you. We anticipate completing this transition by 4510745107.

Your Field Engineering Representative can assist you with any questions regarding the change in category. If you have additional questions please contact Bryan Michalik via phone at (847)664-3988, or email Bryan.J.Michalik@ul.com.

Please share this Bulletin with other interested parties within your organization.

Sincerely,

Issued under the joint responsibility of Underwriters Laboratories of Canada Inc. & UL LLC.
